

THE FREEDOM TO GRILL™

THE ELECTRICHEF™ SAFIRE™ FLAMELESS ELECTRIC GRILL.

The compact grill with plenty of heat.

Cook it the way you like it! Sear steaks, petit filets or sushi-grade tuna steaks at a full 600 degrees! If you enjoy the look of grill marks on your steaks, you'll love what your new Safire can do! Or turn down the heat for perfectly cooked chicken, fish, or vegetables.

Just grill it!

The Safire is our most compact and easiest grill to use. The 115-volt Safire Grill is small – but powerful. With a cooking surface of 224 square inches, Safire gives you the freedom to grill where other grills can't go.

A grill made for quality and convenience.

Your new Safire Grill is made to last and comes with a variety of high-end features:

- Powered by a 115V/20A outlet
- No propane or charcoal and no open flame
- Made of heavy 304 stainless steel for durability
- Professional grade components
- All-digital integrated time/temperature controls
- Precise temperature settings
- Automatic shutoff for safety
- Stainless steel drip tray for easy cleanup
- Sink & dishwasher friendly cooking grates

Zero to 600 degrees in 8 minutes!

Turn your Safire into the ultimate grilling experience with a custom stand or cart.
